

The Green Grid Member Testimonial

Overview:

The Green Grid Web site features a rotating Member Testimonial (<http://www.thegreengrid.org/about-the-green-grid/member-testimonial.aspx>) with the company logos and Web site link of two Members who would like to share how The Green Grid's mission to advance energy efficiency in data centers and business computing ecosystems has benefitted their company or in their day job. In the past three months, over 7,000 users each month visit The Green Grid Web site to find out more about what The Green Grid and its members are doing. If you have implemented PUE and seen an improvement, found that a white paper has helped in your business activities, learned something from an Academy course, or found something else useful your membership with The Green Grid has provided, we encourage you to pass this on to others.

Members are invited to participate in this opportunity. Applications for the Members Testimonial will be accepted until **Friday, February 26th**.

Guidelines:

Please remember that The Green Grid is a global non-profit consortium of companies dedicated to advancing energy efficiency in data centers and business computing ecosystems. As such, The Green Grid does not endorse any vendor-specific products or solutions. Also, please note that The Green Grid is a technology-driven organization, not a marketing platform.

- Members are asked to focus their features on how participating in The Green Grid has benefitted your company or in your day job
- Members are asked not to make statements, such as they are the "leading company", "only company to offer this solution", "largest provider", etc. as all Member companies are working together in The Green Grid and TGG Administration is unable to validate these statements
- Submissions should be written in third-person
- Attach a high-resolution jpeg or gif company logo to your email (preferably 200x200 pixels)
- Company feature should be approximately 200 words or less
